Annex 05.02: Request for Proposal for Individual Consultants | May 2023
1. Introduction

1.1 Global Center on Adaptation
The Global Center on Adaptation (GCA) is an international organization that works as a solutions broker to catalyze action and support for adaptation solutions, from the international to the local, in partnership with the public and private sector, to ensure we learn from each other and work together for a climate resilient future. Adapting to impacts of climate change provides a “win-win” for livelihoods, food security, water supply, health, security, and economic growth. The work of the GCA elevates the visibility and political importance of climate adaptation and facilitates solutions, such as smarter investments, new technologies and better planning to become more resilient to climate related threats. GCA is a rapidly growing organization with offices in Abidjan, Beijing, Dhaka, Groningen, and Rotterdam.

The GCA’s ambitious 2020-2025 business plan and strategy have three pillars:

- Programs: Food Security; Using Nature for more resilient infrastructure; Water for Urban Growth and Resilience; Climate Finance; Youth Leadership.
- Knowledge: Building adaptation knowledge globally through cutting edge products such as the State and Trends in Adaptation Report and the Knowledge Exchange Platform.
- Advocacy and Awareness: Formulating policy messages to move the global, regional, and local adaptation agendas forward.

1.2 Program Background Information
While GCA’s activities in agriculture and food security sector has been carried out mainly in Africa, the Center is keen to expand its Program activities to promote climate adaptation in the food security into Bangladesh in particular, and Asia in general. As GCA recognizes the long-standing efforts by the public sector and various organizations (including Asian Development Bank, World Bank, UK Department for International Development, USAID and many others) to improve food security and implement climate adaptation solutions in the agricultural sector, an understanding of the current and trend of the situation on food security in the country is important to identify appropriate entry points for GCA.

There will be no public opening session for the proposals received. Offers will be opened privately by GCA after the closing time specified for the receipt of proposals. No public announcement of the contents of any offer will be made at any time.

5. **Evaluation of Proposals and Bidders**

The evaluation of bidders and proposals will be done in accordance with the following subsequent steps:

• Verification that the bidder fulfils the Exclusion Criteria in Section 5.1 and that it is not in one of the situations covered by the exclusion criteria listed in EU Directive 2014/24/EU.

• Verification that the bidder has the appropriate capacities to perform the contract based on the Selection Criteria described in Section 5.2 (only for those bidders that were not excluded based on the Exclusion Criteria).

• Evaluation of the bidder based on the Award Criteria described in Section 5.3 (only for those bidders that have met the Selection Criteria).

• The Evaluation Committee shall evaluate the technical proposals first and shall thereafter open and evaluate the financial proposals of only those bidders whose technical proposals meet the minimum technical score.

• Where individual scoring is adopted, the Evaluation Committee shall discuss scores were there are significant discrepancies prior to computing the average score for each criterion.
• During financial evaluation, where there is a discrepancy between the amounts in figures and in words, the amount in words shall govern. Where there is a discrepancy between the unit rate and the line-item total resulting from multiplying the unit rate by the quantity, the unit rate shall govern, unless in the opinion of the Evaluation Committee there is an obviously gross misplacement of the decimal point in the unit rate, in which case the line-item total shall govern, and the unit rate shall be corrected.

The proposal must comply with the GCA strategic requirements set in this RFP as a precondition to be assessed. In a case of non-compliance with the Exclusion Criteria, the bidder will be informed of the grounds for rejection without being given feedback on the content of the proposal other than on the non-compliant elements.

The evaluation of proposals shall be carried out by an Evaluation Committee made up of representatives of GCA. Any attempt by a bidder to influence the Evaluation Committee in the process of examination, clarification, evaluation, due diligence checks, etc., to obtain information on how the procedure is progressing or to influence GCA in its decision concerning the award of the contract, will result in the immediate rejection of the bidder’s proposal.

In the interest of transparency and equal treatment, without being able to modify their proposals, bidders may be required, at the sole written request of the Evaluation Committee, to provide clarifications within 48 hours. Requests for clarifications will only seek minor clarifications of information already submitted by the bidder. No modifications to a proposal can be sought or accepted through a request for clarification (except for the correction of arithmetical errors discovered during the evaluation of the proposal).

5.1 Exclusion Criteria
Participation in this RFP is open on equal terms to any natural and legal companies not in any of the situations listed in Article 57 of the EU Directive 2014/24/EU.

Bidders shall provide a Declaration of Honor (see Annex 2), duly signed and dated, including a statement that they are not in any of the situations listed in Article 57 of EU Directive 2014/24/EU. In case of a joint proposal such declaration shall be submitted for each partner. The declaration shall also be submitted for the subcontractors, when relevant.

Besides the submission of the signed Declaration of Honor, the bidder undertakes to inform GCA, without delay, of any changes to their situation in this regard.

Bidders may be excluded from participation in this RFP if they are found to be in one of the situations for exclusion or fail to submit the above-mentioned declaration.

5.2 Award Criteria
Proposals will be rated on both technical and financial bases, using the best value for money approach. The selection method will choose the highest rated proposal using the combined scoring method, which assigns the weight distribution between the technical and financial proposals. The overall combined score will be 100 points, the weight distribution shall be 70 points for the technical proposal and 30 points for the financial proposals.

It is important to note that the required minimum cumulative score (threshold) for the Technical Proposal is 60% (42 points). Only proposals obtaining the minimum score (threshold) or more in the Technical Evaluation will progress to the Financial Evaluation.

Technical Proposals scoring less than the minimum score (threshold) will be considered of insufficient quality and shall be rejected. The contract shall be awarded to the top ranked
bidder who submitted the most economically advantageous tender based on the best price quality ratio in accordance with the following criteria:

Bids scoring less than the minimum score for any technical award criterion will be considered of insufficient quality and shall be rejected.

For the purposes of the evaluation of the Financial Proposal, the bidder offering the lowest price shall receive the maximum total score of 30 points. The score of all other financial proposals will be calculated using the following formula:

\[
\text{Financial score} = \left( \frac{\text{Lowest bid}}{\text{Current bid}} \right) \times \text{Maximum points to be awarded}
\]

After careful scoring of each bidder’s proposal (technical and financial), GCA shall award the contract to the bidder that obtains the highest combined technical and financial score. The decision will be communicated by email to all bidders.

6. RFP Cancellation

GCA reserves the right to cancel this RFP process at any point. GCA shall not be liable for any compensation with respect to interested bidders whose submissions have not been accepted, nor shall it be so liable if it decides not to award the contract.

Cancellation may occur where:

1) The RFP procedure has been unsuccessful. For example, where no technically/financially responsive proposal has been received or there has been no response at all.
2) The economic or technical parameters of the project have been fundamentally altered.
3) Exceptional circumstances or force majeure render normal performance of the project impossible.
4) All technically compliant proposals significantly exceed the financial resources available.
5) There have been irregularities in the procedure where these have prevented fair competition.

In the event of cancellation of RFP procurement proceedings, bidders will be notified by GCA.

7. Ownership of Proposals Submitted
Any document submitted in reply to this RFP will become the property of GCA and will be regarded as confidential.

8. Liabilities for Errors
GCA, its employees and agents shall not be held liable or accountable for any error or omission in any part of this RFP or response to bidders’ questions. While the GCA, and/or its employees and agents have made conscious efforts to ensure an accurate representation of information in this RFP, the information contained in the RFP is supplied solely as a guideline for bidders. The information is not guaranteed or warranted to be accurate by GCA, and/or its employees or agents, nor is it necessarily comprehensive or exhaustive. Nothing in this RFP is intended to relieve bidders from the responsibility of conducting their own investigations and research and forming their own opinions and conclusions with respect to the matters addressed in this RFP. Bidders will be solely responsible to ensure that their proposal meets all requirements of the RFP, to advise GCA immediately of any apparent discrepancies or errors in the RFP, and to request clarification if in doubt concerning the meaning or intent of anything in the RFP.

Annex 3: Scope of Work/Terms of Reference

Introduction
The Global Center on Adaptation (GCA) is an international organization which works as a solutions broker to accelerate action and support for adaptation solutions, from the international to the local, in partnership with the public and private sector, to ensure we learn from each other and work together for a climate resilient future. Founded in 2018, GCA is hosted by the Netherlands, working from its headquarters in Rotterdam with a knowledge and research hub based in Groningen. GCA has a worldwide network of regional offices in Abidjan, Ivory Coast; Dhaka, Bangladesh and Beijing, China.

While GCA’s activities in agriculture and food security sector has been carried out mainly in Africa, the Center is keen to expand its Program activities to promote climate adaptation in the food security into Bangladesh in particular, and Asia in general. As GCA recognizes the longstanding efforts by the public sector and various organizations (including Asian Development Bank, World Bank, UK Department for International Development, USAID and many others) to improve food security and implement climate adaptation solutions in the agricultural sector, an understanding of the current and trend of the situation on food security in the country is important to identify appropriate entry points for GCA.

Country context
Bangladesh is seventh on the list of countries most vulnerable to climate change according to the Global Climate Risk Index (CRI 2021), due to its topography, location, biophysical and socio-economic factors. The country is also home to the largest delta in the world. This agriculture-dominated low-lying deltaic zone houses over 160 million people, according to the World Bank. Approximately 47% of Bangladeshis are employed by the sector (Bangladeshi Bureau of Statistics). Agriculture in Bangladesh is highly dependent on the timing and intensity of the monsoon season for crop selection, crop water needs, daily farm management, etc. However, seasonal weather variability, extreme weather (i.e., droughts, floods) caused by climate change challenges decision-making by agricultural producers.

Objectives and Description of Assignment:
There are various approaches to climate adaptation which can support the agricultural sector. These range from climate smart agriculture options, climate information services, climate smart seed system, agroecology-based approaches, among others. The adoption of these approaches by farmers may be accelerated through digital-based solutions. Public assessment reports—from World Bank, USAID, and others—demonstrate the roles and contributions of digital solutions for climate adaptation in Bangladesh. Other contributions to climate adaptation in Bangladesh also include climate-resilient infrastructure, crop-insurance, increased crop diversification, good agricultural practices, disaster-risk management, and many others. In such a rather crowded space with several donors, it is important for GCA to define its key contribution where implementation efforts are most needed.

Under this consultancy, GCA is looking for a consultant to conduct an assessment on the state of the past, present, and future contributions to climate adaptation of the agriculture sector and the donor-funded ecosystem of Bangladesh. The consultant shall review available information, gaps, and trends on food security in Bangladesh, key players, and their priorities and, opportunities for synergies to help make informed decision on the strategic priorities, entry points and role that GCA can play to improve climate adaptation in a gender responsive
approach in Bangladesh’s agricultural sector. Special attention will be placed on research – extension and adoption linkages on seed systems in general and stress-tolerant varieties in particular. It will provide insights into the level of farmer adoption, successes, and challenges to scaling up of seeds generated from research organizations particularly those from the CGIAR and other national agricultural research.

Close attention should be paid to areas where investments are lowest, where impact can be maximized, with highest returns for the diverse farmers typologies and benefits for the agri-sector, where key value chains are at risk, and which facilitates partnerships with key agricultural stakeholders (governmental agencies, private sector, MDBs, farmers organizations, research institutions, etc.). Emphasis may also be on areas of investment with highest potential to contribute to gender equality, women and youth empowerment and social inclusion.

The scoping study will assess and produce a report covering the following topics.

- **A. Overview of the agricultural economy of the country and its related climate risk**
  - The main agricultural value chains: most recent state and trends in production, contribution to national income and food security
  - Brief assessment of the most urgent climate, water, and nutrition risks in the context of the identified major value chain, and on different typologies of people (women, youth, people with disability) operating in these value chains

- **B. Mapping of stakeholders and the Donor Ecosystem:**
  - Stakeholder mapping of main government organizations, donor organizations, private sector, academia, and civil societies involved in climate adaptation of the agricultural sector: past, ongoing, and future projects (investments, target areas, achievements... etc.). This mapping should include key priorities for each organization in their work in the agriculture and food systems space in the country
  - An inventory and review of the most recent reports and results framework related to climate adaptation in the agricultural sector of Bangladesh combined with links to access the reports.
  - Synthesizing key lessons learned over the years in Agriculture and Food Security sectors in Bangladesh.

- **C. State of the art on farmer adoption and scaling up of seeds in Bangladesh:**
  - Rapid review of CGIAR and national systems to identify the range of varieties available and their potential role to support climate adaptation in the country.
  - Quick market assessment of successes of adoption of seeds by farmers, bottlenecks, and barriers for upscaling seed to the target population.
  - Quick review of the engagement of private sector in seed systems in Bangladesh and factors responsible for their current level of engagement

- **D. Evaluation of the landscape of DCAS in Bangladesh:**
  - Digital capacity of farmers, IT infrastructure & telecommunication tools available
  - Institutional environment: institutions, policies & mandates related to DCAS
  - Business environment: the set of economic, political, and social conditions affecting DCAS scaling up
  - Evaluation of DCAS access in terms of gender & farmer-typology
- **Mapping of existing DCAS solutions (impact, challenges, accuracy-levels, research-needs), and the providers and key (government, private and non-profit) stakeholders in this field**

- **Understanding the areas and agricultural value chains of priority for the development, implementation & scale-up of DCAS, as well as providers and stakeholders in this field**

- **E. GCA strategic roles in Climate Adaptation on Bangladesh Agriculture and Food Sector**
  - Identify the entry points and key target areas for GCA to mainstream climate adaptation solutions, based on major investment projects in the sector including donor-funded existing projects, their achievements, hotspots for climate-risk and, neglected areas for investments.
  - Advice on the approach to engage with women and youth with climate-adaptation solutions in the agricultural sector.
  - Assessment of key partners in the agrifood sector and engagement models which can be explored, at various levels with multiple sectors (e.g., potential public-private partnership; exchange and collaboration platforms, gender-focused organizations, financial partners, FAO, IFAD, MDBs (World Bank), Bilateral Development Partners (USAID) Telcos, tech companies, impact investors, etc.)

- **F. Contribute to the conduct of a validation and stakeholder consultative forum on climate adaptation in Bangladesh**
  - Prepare slides and give a presentation of the key findings of the study.
  - Suggest names of key participants to the consultative forum.
  - Provide other inputs to the successful organization of the consultative forum as may be required by GCA.

**Stakeholder Workshop**

During the timeframe of the consultancy study, GCA will organize a validation and stakeholder consultative forum on climate adaptation in Bangladesh to engage governmental agencies, private and NGO stakeholders, research institutions, women-led organizations, community based organizations, and other relevant stakeholders involved in the Resilient Food System in Bangladesh. The workshop’s aim will be to discuss the findings of the study and current state of the sector—remaining challenges, successful approaches, and sector-specific concerns. The consultant in charge of the scoping study will be expected to give a presentation at the workshop and provide advice to GCA in event logistics as may be necessary.

**Application Guidelines**

Interested applicants can submit a technical and financial proposal. Applications will be rated on the qualification of consultant, and the technical and financial proposals (after confirming with Procurement Unit)—using the best value for money approach.

11.1 In addition to the statutory provisions pertaining to termination, in the cases below, without judicial intervention or further notice of default, whole or partial termination of this Contract shall be possible, with immediate effect, for:

11.1.2 Either Party, if the other Party is prevented by force majeure from complying with its obligations wholly or in part for a period of three months or more;

11.1.3 Either Party, if the other Party discontinues its business operations;

11.1.4 The GCA, if the Contractor, after a written demand from the GCA allowing a reasonable time for compliance, still fails attributably to comply promptly, properly or at all with any obligation under this Contract;

11.1.5 The GCA, if there is any doubt about the reliability and/or integrity of the Contractor, resulting from the screening process including but not limited to, for example, the condition that it has been determined that the Contractor has been involved in serious incidents or irregularities with previous employers and/or on previous assignments;

11.1.6 GCA, if one or more of the exclusion criteria mentioned in section I or section II of the signed Declaration on Honor becomes true for the Contractor.

11.2 Termination of this Contract shall not affect the other rights and/or recovery possibilities of the Party terminating it.

11.3 In the event of termination by GCA due to the fault of the Contractor, the GCA shall withhold and deduct from payment to Contractor the amount reasonably deemed necessary to complete the Services and deliver the Deliverables.

11.4 Unless and to the extent otherwise specified in this Contract, on the termination of this Contract for any reason, the GCA shall be responsible for paying the part of the Fee for Deliverables that have been accepted by the GCA up to and including the effective date of termination.
11.5 In the event that either Party wishes to terminate this Contract, a 30-day notice period will be taken into account by both the Contractor and the GCA, except for the situations mentioned in Article 11.1 above.
