1. Background information

The Global Center on Adaptation (GCA) is an international organization that works as a solutions broker to catalyze action and support for adaptation solutions, from the international to the local, in partnership with the public and private sector, to ensure we learn from each other and work together for a climate resilient future. Adapting to impacts of climate change provides a “win-win” for health, livelihoods, food security, water supply, human security, and economic growth. The work of the GCA elevates the visibility and political importance of climate adaptation and facilitates solutions, such as smarter investments, new technologies and better planning to become more resilient to climate-related threats. GCA is a rapidly growing organization with offices in Abidjan, Beijing, Dhaka, Groningen, and Rotterdam.

The GCA has an ambitious 2020-2025 business plan with three pillars:
- Programs and Action: Food Security; Using Nature for more resilient infrastructure; Water for Urban Growth and Resilience; Climate Finance; Youth Leadership
- Knowledge Acceleration: Building adaptation knowledge globally through cutting edge products such as the State and Trends in Adaptation Report and the Knowledge Exchange Platform
- Agenda Setting and Advocacy: Formulating policy messages to move the global, regional, and local adaptation agendas forward.

The GCA has developed a Technical Assistance Program (TAP) as a core implementation vehicle of the Africa Adaptation Acceleration Program (AAAP) to access and leverage climate adaptation finance. AAAP was developed in partnership with the African Development Bank to mobilize USD25 billion by 2025 for adaptation and resilience investments.

The TAP is composed of three main components: (i) building capacities for adaptation finance planning and decision making; (ii) strengthening direct access while maintaining complementarity with international access; and (iii) promoting inter-sectoral, large-scale and transformational A&R projects and programs, in line with national and regional priorities.

In this context, the Infrastructure Development Company Limited (IDCOL), from Bangladesh, requested technical support from the GCA for the development and submission of its GCF adaptation funding proposal for sustainable coastal forestry.

In response to this request, the GCA is recruiting a senior international/local consultant to support IDCOL to access the climate change fund from GCF for this specific project.

The Green Climate Fund (GCF)

The Green Climate Fund (GCF) is the first targeted international climate fund, given its pivotal role, the unprecedented volumes of funding it offers, the range of financial instruments it provides, and its financing strategy based on blended finance.

The GCF was created to support the efforts of developing countries to respond to the challenge of climate change. GCF helps developing countries limit or reduce their greenhouse gas (GHG) emissions and adapt to climate change. It seeks to promote a paradigm shift to low-emission and climate-resilient development, taking into account the needs of nations that are particularly vulnerable to climate change impacts. It was set up by the 194 countries who are parties to the United Nations Framework Convention on Climate Change (UNFCCC) in 2010, as part of the Convention’s financial mechanism. It aims to deliver equal amounts of...
funding to mitigation and adaptation, while being guided by the Convention’s principles and provisions.

Infrastructure Development Company Limited (IDCOL)
Infrastructure Development Company Limited (IDCOL) was established by the Government of Bangladesh on May 1997 and was licensed as a non-bank financial institution (NBFI). Since its inception, IDCOL is playing a major role in bridging the financing gap to develop medium to large-scale infrastructure and renewable energy projects in Bangladesh with support from its key development partners such as GCF, World Bank, ADB, JICA, IDB, KfW, GIZ, USAID, etc.

IDCOL is committed to help in ensuring economic development of the country and to improve the standard of living of the people through mitigation of GHG emissions, sustainable and environmental-friendly investments.

Notably, IDCOL is the 1st Direct Access Entity (DAE) of GCF in Bangladesh, accredited in 2017. In 2020, IDCOL got approval of its first GCF project of USD 340.50 million for energy efficiency equipment and technology financing in RMG and textile sectors of Bangladesh. Presently, IDCOL has a strong pipeline of climate change projects for both adaptation and mitigation interventions.

Funding Proposal (FP) for sustainable coastal forestry in Bangladesh
As forests serve as a source of resilience-absorbing harmful CO2 emissions, providing resources to local populations, and through forest-landscape design to protect communities from increasingly erratic climatic impacts, IDCOL has developed a funding proposal tilted “Climate Resilient Sustainable Coastal Forestry in Bangladesh” to address this issue.

The project will reduce forest degradation and increase forest coverage through participatory planning/monitoring to contribute to building the long-term resilience of selected communities in coastal areas of Bangladesh to climate change. The project will also strengthen the climate resilient livelihood activities in the targeted area by following a conservation-linked value chain approach. This is expected to improve and diversify non-forest-based livelihood opportunities of poor forest dependent households in selected forest communities and thus safeguard the forest and ensure sustainability of the project.

With Project Preparatory Facility (PPF) grant support received from GCF, several preparatory studies including project feasibility, ESMF, gender analysis and gender action plan, risk analysis, monitoring and reporting framework, etc. have been conducted with the support of local experts. Finally, IDCOL developed the funding proposal (FP) which is expected to be submitted to GCF by 2023. Bangladesh Forest Department, Ministry of Environment, Forest and Climate Change (MoEFCC), is the executing entity (EE) of this project.

After the 1st submission by DAE, GCF reviews the FP and relevant annexures and provides necessary feedback/reviews to align it with the GCF modalities. There can be several rounds of feedback/reviews, depending on a case-by-case basis.

One of the project components is climate resilient livelihood activities in the targeted area by following a conservation-linked value chain approach. A forestry livelihood expert support will be required to revise the livelihood components of the funding proposal and associated annexures, in line with feedback/reviews received from different layers of GCF reviewers including GCF Secretariate, Independent Technical Advisory Panel (ITAP) and GCF Board till the project approval.
For better understanding of the initial idea of the project, GCF approved CN is available at: https://www.greenclimate.fund/document/climate-resilient-sustainable-coastal-forestry-bangladesh

2. Objective of the Assignment
The senior local forestry livelihood consultant needs to re-design the livelihood component of the project by selection of beneficiary, development of business modalities, analysis of market value chain, considering distinctive nature of coastal areas of Bangladesh. He/she also will have to address GCF comments and queries during the approval process of the FP.

3. Scope of the Services to be Performed
The consultant will be responsible for providing high quality technical support for redesigning the livelihood component of the funding proposal in line with GCF requirements, till the FP is approved by the GCF Board. He/she will start working on the basis of the 1st review/feedback to be received from GCF on the submitted FP and other relevant annexures. A livelihood assessment has already been undertaken in the targeted project area during the project preparation phase and the relevant report is developed for GCF submission. The consultant will strengthen the project’s existing livelihood component and re-work the livelihood report by bringing his professional expertise and practical experience, in global and local context.

4. Key Tasks and Activities to be Performed
- Task 1: Strengthening the livelihood component of the funding proposal

  - For each identified livelihood option develop: (i) financing model with justification for requirement of suitable financial instrument (loan/grant) (ii) implementation modality and entrepreneurship development tools (iii) market value chain analysis
  - Design capacity building and knowledge management component for the identified livelihood interventions

  - Review and make necessary adjustments in the existing livelihood report/assessment by incorporating detailed analysis mentioned under task 1.
  - Rearticulate and rephrase the language of the report and the funding proposal acceptable to GCF

- Designing the livelihood component of the project to ensure enhancing adaptation benefits, proper selection of most vulnerable communities and avoiding possibilities of maladaptation
- Support in designing the knowledge component of the project to integrate and enhance adaptation elements

ARTICLE 10

11) Intellectual, Industrial and Proprietary Rights

10.1 All right, title and interest in the Deliverables, including any products, methods, works and/or materials developed by the Contractor, in whole or in part, during or in connection with this Contract, shall automatically vest in the GCA upon creation and the GCA shall be the sole and unlimited owner thereof and of rights therein throughout the world perpetually. GCA shall retain all such rights therein, including but not limited to statutory copyrights, and all renewals thereof, as a copyright author and proprietor.

10.2 The Contractor agrees to execute and deliver, and to use maximum endeavors to cause any subcontractor to execute and deliver, to GCA any and all materials, instruments, source documents, designs, instructions and codes reasonably required by the GCA in connection with the use, adaption, execution and enjoyment of the Deliverables and of the GCA’s rights therein and thereto.

10.3 Contractor undertakes to do everything necessary to ensure that all existing and any future Intellectual and/or Industrial Property Rights pertaining to the Deliverables are (and remain) vested with GCA or with third party designated by the GCA. The Fee or rates that Contractor charges to GCA in the context of the Contract shall be deemed, in as far as necessary, to include payment for these Intellectual and/or Industrial Property Rights. To effect this transfer, the following acts must at any rate be performed: by signing the Contract, Contractor transfers to GCA all existing and future Intellectual and/or Industrial Property Rights to existing and future Deliverables and the results of the Services.

10.4 Insofar as these acts prove not to ensure that all Intellectual and/or Industrial Property Rights are transferred to the GCA, the Contractor undertakes, if the situation arises, to do everything possible to effect the transfer, without the Contractor being allowed to attach further conditions to its cooperation. As long as this has not been done, Contractor hereby gives the GCA: an irrevocable authorization to exercise and protect the powers arising from the relevant Intellectual and/or Industrial Property Rights in and out of court; an exclusive, royalty-free, transferable, irrevocable, perpetual, and worldwide license, to use all Deliverables and all Intellectual and/or Industrial Property Rights pertaining thereto.

10.5 Notwithstanding the foregoing, insofar as Contractor has made any material available to GCA, to which material Contractor has Intellectual and/or Industrial Property Rights, Contractor states that it shall grant GCA a non-exclusive and non-transferable right to use this material.

10.6 The Contractor shall hold or obtain all consents, permissions and/or clearances in third-party intellectual property rights necessary to enable it to perform the Services. The Contractor shall be liable for any violation of legal provisions or rights of third parties in respect of all rights used in the Deliverables or during the performance of the Services.
The Contractor, to the extent permitted by law, agrees to indemnify and hold harmless the GCA from all claims and causes of action asserted by third parties based on (alleged) Intellectual and/or Industrial Property Rights or on any other basis.

10.7 It is acknowledged and agreed by the Parties that GCA owns all property rights and may use, adapt, add to and subtract from the Deliverables and combine these with other artistic or literary material and to publish the result by any means, it being understood that the Contractor (including its employees and subcontractors) hereby waives and agrees not to exercise or enforce any so-called “moral rights” which may now or may hereafter be recognized.

10.8 GCA grants Contractor a non-exclusive, non-transferable, non-assignable and limited right and license to use the following only to perform the Services in accordance with this Contract: The GCA’s trademarks, trade names, tag lines logos or service marks and any information made available to the Contractor by the GCA.

ARTICLE 11

12) Termination of the Contract
11.1 In addition to the statutory provisions pertaining to termination, in the cases below, without judicial intervention or further notice of default, whole or partial termination of this Contract shall be possible, with immediate effect, by:
11.1.1 Either Party, if the other Party becomes insolvent, has applied for a suspension of payment, or that other Party has been adjudicated bankrupt;
11.1.2 Either Party, if the other Party is prevented by force majeure from complying with its obligations wholly or in part for a period of three months or more;
11.1.3 Either Party, if the other Party discontinues its business operations;
11.1.4 The GCA, if the Contractor, after a written demand from the GCA allowing a reasonable time for compliance, still fails attributably to comply promptly, properly or at all with any obligation under this Contract;
11.1.5 The GCA, if there is any doubt about the reliability and/or integrity of the Contractor, resulting from the screening process including but not limited to, for example, the condition that it has been determined that the Contractor has been involved in serious incidents or irregularities with previously contracted persons, clients, employers and/or on previous assignments;
11.1.6 The GCA, if one or more of the exclusion criteria mentioned in section I or section II of the signed Declaration on Honor becomes true for the Contractor.

11.2 Termination of this Contract shall not affect the other rights and/or recovery possibilities of the Party terminating it.

11.3 In the event of termination by GCA due to the fault of the Contractor, the GCA shall withhold and deduct from payment to Contractor the amount reasonably deemed necessary to complete the Services and deliver the Deliverables.

11.4 Unless and to the extent otherwise specified in this Contract, on the termination of this Contract for any reason, the GCA shall be responsible for paying the part of the Fee for
Deliverables that have been accepted by the GCA up to and including the effective date of termination.

11.5 In the event that either Party wishes to terminate this Contract, a 30-day notice period will be taken into account by both the Contractor and the GCA, except for the situations mentioned in Article 11.1 above.

11.6 The following Articles shall survive any termination, cancellation or expiration of this Contract, together with any other provisions herein that by their nature shall survive: Article 7 (Warranties), Article 8 (Indemnification), Article 9 (Confidentiality and Marks), Article 10 (Intellectual, Industry and Proprietary Rights), Article 14.8 (Notice) and Article 15 (Applicable Law).

ARTICLE 12

13) Liability
