## 1. Introduction

### 1.1. Global Center on Adaptation

The Global Center on Adaptation (GCA) is an international organization that works as a solutions broker to catalyze action and support for adaptation solutions, from the international to the local, in partnership with the public and private sector, to ensure we learn from each other and work together for a climate resilient future. Adapting to impacts of climate change provides a “win-win” for livelihoods, food security, water supply, health, security, and economic growth. The work of the GCA elevates the visibility and political importance of climate adaptation and facilitates solutions, such as smarter investments, new technologies and better planning to become more resilient to climate related threats. GCA is a rapidly growing organization with offices in Abidjan, Beijing, Dhaka, Groningen, and Rotterdam.

The GCA’s ambitious 2020-2025 business plan and strategy have three pillars:

- Programs: Food Security; Using Nature for more resilient infrastructure; Water for Urban Growth and Resilience; Climate Finance; Youth Leadership.
- Knowledge: Building adaptation knowledge globally through cutting edge products such as the State and Trends in Adaptation Report and the Adaptation Knowledge Portal.
- Advocacy and Awareness: Formulating policy messages to move the global, regional, and local adaptation agendas forward.

### 1.2. Program Background Information

GCA’s Food Security and Rural Wellbeing Program and the Youth Adaption Program (hereinafter referred to simply as the Programs) aim to harness the potential of digitalization and climate-resilient seeds to promote climate adaptation and resilience of agri-food systems which are increasingly vulnerable to the vagaries of climate change, as well as identify potential adaptation opportunities and solutions that could leverage the innovation capabilities of youth and create jobs. The Programs mainstream these adaptation solutions into food security investments and investments in other sectors (in the case of the Youth Program) financed by International Finance Institutions (IFIs) such as World Bank Group (WBG), African Development Bank (AfDB), International Fund for Agricultural Development (IFAD) and others. This includes providing knowledge and analytics on the extent of climate risks in the agri-food sector and potential climate-smart digital solutions and climate-resilient seeds to address the challenges; mainstreaming the solutions in the design and implementation of investment projects in the agri-food sector, leveraging capabilities of youth for climate adaptation solutions, and building the capacity of key stakeholders, in the youth, to design and use digital tools to promote climate adaptation in the agri-food sector.

There will be no public opening session for the proposals received. Offers will be opened privately by GCA after the closing time specified for the receipt of proposals. No public announcement of the contents of any offer will be made at any time.

### 5. Evaluation of Proposals and Bidders

The evaluation of bidders and proposals will be done in accordance with the following subsequent steps:

- Verification that the bidder fulfils the Exclusion Criteria in Section 5.1 and that it is not in one of the situations covered by the exclusion criteria listed in EU Directive 2014/24/EU.
- Verification that the bidder has the appropriate capacities to perform the contract based on the Selection Criteria described in Section 5.2 (only for those bidders that were not excluded based on the Exclusion Criteria).
- Evaluation of the bidder based on the Award Criteria described in Section 5.3 (only for those bidders that have met the Selection Criteria). Scoring for each Award Criterion will be conducted using the following scale:
  - Excellent
  - Good
  - Average
  - Below average
  - Poor
- The Evaluation Committee shall evaluate the technical proposals first and shall thereafter open and evaluate the financial proposals of only those bidders whose technical proposals meet the minimum technical score.
- Where individual scoring is adopted, the Evaluation Committee shall discuss scores where there are significant discrepancies prior to computing the average score for each criterion.
- During financial evaluation, where there is a discrepancy between the amounts in figures and in words, the amount in words shall govern. Where there is a discrepancy between the unit rate and the line-item total resulting from multiplying the unit rate by the quantity, the unit rate shall govern, unless in the opinion of the Evaluation Committee there is an obviously gross misplacement of the decimal point in the unit rate, in which case the line-item total shall govern, and the unit rate shall be corrected.

The proposal must comply with the GCA strategic requirements set in this RFP as a precondition to be assessed. In a case of non-compliance with the Exclusion Criteria, the bidder will be informed of the grounds for rejection without being given feedback on the content of the proposal other than on the non-compliant elements.

The evaluation of proposals shall be carried out by an Evaluation Committee made up of representatives of GCA. Any attempt by a bidder to influence the Evaluation Committee in the process of examination, clarification, evaluation, due diligence checks, etc., to obtain information on how the procedure is progressing or to influence GCA in its decision concerning the award of the contract, will result in the immediate rejection of the bidder's proposal.

In the interest of transparency and equal treatment, without being able to modify their proposals, bidders may be required, at the sole written request of the Evaluation Committee

(via Procurement), to provide clarifications within 48 hours. Requests for clarification will only seek minor clarifications of information already submitted by the bidder. No modifications to a proposal can be sought or accepted through a request for clarification (except for the correction of arithmetical errors discovered during the evaluation of the proposal).

**5.1. Exclusion Criteria**

Participation in this RFP is open on equal terms to any natural and legal companies not in any of the situations listed in Article 57 of the EU Directive 2014/24/EU.

Bidders shall provide a Declaration of Honor (see Annex 2), duly signed and dated, including a statement that they are not in any of the situations listed in Article 57 of EU Directive 2014/24/EU. In the case of a joint proposal such a declaration shall be submitted for each partner. The declaration shall also be submitted for the subcontractors, when relevant.

Besides the submission of the signed Declaration of Honor, the bidder undertakes to inform GCA, without delay, of any changes to their situation in this regard.

Bidders may be excluded from participation in this RFP if they are found to be in one of the situations for exclusion or fail to submit the above-mentioned declaration.

**5.2. Selection Criteria**

Bidders will be evaluated against each Selection Criterion based on the documentary evidence submitted by the bidder. Failure to submit the evidence requested will lead to a rejection of the proposal. Bidders will be evaluated against the Selection Criteria on a **pass/fail basis**. ## Annex 3: Terms of Reference

### TERMS OF REFERENCE (TOR)

#### 1. Background Information

With 9 million hectares of forest cover and an afforestation rate of 8%, the forestry sector in Morocco is considered very important to the country's economy and its climate resilience. The sector contributes about 18% of employment, 17 billion Dirhams (more than \$1.7 billion) yearly, and 2% to the country's GDP. In addition, it contributes 4% of the world's cork supply.

Morocco's forests are, however, increasingly exposed to climate change-induced hazards like droughts, water erosion, more frequent and severe wildfires exacerbated by increased dryness from droughts, the emergence of new pests that decimate forest biodiversity, and growing desertification. In 2023 alone, Morocco lost about 7,600 hectares of forests to wildfires. The year 2022 was worse; over 32,100 hectares were burned by wildfires according to Statista reports produced in 2023. This rising forest degradation/loss poses severe risks to Morocco's climate adaptation and economy, and the resilience of significant parts of its population dependent on the forest economy for their livelihoods.

The Government of Morocco is working to restore forest covers (133,00 hectares), create jobs in forest restoration and forestry value chains (27,500 jobs), and raise the annual value generated by forestry production and ecotourism subsectors by between 2 and 5 billion dirhams (\$200 – 500M) a year, according to its National Forest Development Strategy 2020 – 2030.

As a result, the African Development Bank (AfDB) and partners are funding the Project for the Inclusive and Sustainable Development of Forest Areas (PADIDZOF – in French *Projet d'appui au développement inclusif et durable des zones forestières*). The PADIDZOF project will support the government to realise its objectives through targeted investments in key areas that support the deepening of forest production and forestry economy. The investments will target watershed management, promotion of biodiversity, ecotourism development, and the capacity enhancement and entrepreneurship development support for actors in the sector, including youth and women.

The Global Center on Adaptation (GCA), through its Agriculture and Food Security and Youth Jobs and Entrepreneurship Programs, is collaborating with AfDB on the design and implementation of the PADIDZOF project. GCA's support will specifically focus on assessment of climate risks and vulnerabilities of targeted forest zones, and the evaluation of existing capabilities of mandated institutions to manage these issues; identification of adaptation opportunities for job creation and the skills required for those jobs; and supporting the building of necessary capacity to plug the capabilities gaps identified and ensure that emerging adaptation job opportunities are well utilized – especially by youth and women.

GCA seeks the services of a service provider firm to support technical assistance to the project to harness digital innovations and provide knowledge analytics for decision making, unlock investments, and strengthen institutional capacity for climate resilience and adaptation jobs creation.

#### 2. Objective of the Assignment

The main objective is to support the capacity of the government of Morocco and its institutions to improve the livelihood conditions of targeted forest communities by strengthening institutional climate adaptation, climate-resilient forestry entrepreneurship and jobs creation (for youth) capabilities.

### **3. Scope of the Services, Key Tasks and Activities to be Performed**

The specific activities to be carried out under this the assignments are:

In addition, the activity will also come up with a viable plan to fill capability gaps identified by the assessment. The tasks and deliverables are as follows:

- a. A capabilities diagnostic report – Assessment of existing capabilities of the climate risks management institutions to serve the sector in the selected locations: key gaps in capabilities, skills and institutional capacity. #### **B. Youth Jobs & Entrepreneurship Intervention**

##### **II. Task 2: Labour Market Assessment**

The Labour market assessment will focus on identifying opportunities for the creation of adaptation jobs in the relevant activities and sectors (including forestry / agro-forestry / biodiversity management) and propose strategies for supporting adaptation jobs creation through the project components, tools for measuring the jobs created, and capacity-building initiatives needed to support potential beneficiaries. The assessment will be conducted through the following key interventions:

- a. Identification of Adaptation Opportunities: Identification of adaptation opportunities with potential for the creation of adaptation jobs – including strategies and recommendations for adaptation jobs creation (for example, related to forest-related cottage industry-artisans). Stakeholder engagement will be carried out as part of this identification process.
- b. Skills Gap Assessment: Analysis of gaps between current labor market demands, qualifications, and types of jobs available and needed, identify the specific skills and qualifications required for effective sustainable forest management and adaptation, and assess whether additional training or capacity building is needed.
- c. Recommendations: Based on the analysis, provide clear recommendations for creating adaptation jobs through the project, including a policy and a qualitative investment roadmap.

The outputs of the labour market assessment will be:

## ARTICLE 10

### Intellectual, Industrial and Proprietary Rights

- 10.1 All right, title and interest in the Deliverables, including any products, methods, works and/or materials developed by the Contractor, in whole or in part, during or in connection with this Contract, shall automatically vest in the GCA upon creation and the GCA shall be the sole and unlimited owner thereof and of rights therein throughout

the world perpetually. GCA shall retain all such rights therein, including but not limited to statutory copyrights, and all renewals thereof, as a copyright author and proprietor.

- 10.2 The Contractor agrees to execute and deliver, and to use maximum endeavors to cause any subcontractor to execute and deliver, to GCA any and all materials, instruments, source documents, designs, instructions and codes reasonably required by the GCA in connection with the use, adaptation, execution and enjoyment of the Deliverables and of the GCA's rights therein and thereto.
- 10.3 Contractor undertakes to do everything necessary to ensure that all existing and any future Intellectual and/or Industrial Property Rights pertaining to the Deliverables are (and remain) vested with GCA or with third party designated by the GCA. The Fee or rates that Contractor charges to GCA in the context of the Contract shall be deemed, in as far as necessary, to include payment for these Intellectual and/or Industrial Property Rights. To effect this transfer, the following acts must at any rate be performed: by signing the Contract, Contractor transfers to GCA all existing and future Intellectual and/or Industrial Property Rights to existing and future Deliverables and the results of the Services.
- 10.4 Insofar as these acts prove not to ensure that all Intellectual and/or Industrial Property Rights are transferred to the GCA, the Contractor undertakes, if the situation arises, to do everything possible to effect the transfer, without the Contractor being allowed to attach further conditions to its cooperation. As long as this has not been done, Contractor hereby gives the GCA: an irrevocable authorization to exercise and protect the powers arising from the relevant Intellectual and/or Industrial Property Rights in and out of court; an exclusive, royalty-free, transferable, irrevocable, perpetual, and worldwide license, to use all Deliverables and all Intellectual and/or Industrial Property Rights pertaining thereto.

- 10.6 The Contractor shall hold or obtain all consents, permissions and/or clearances in third-party intellectual property rights necessary to enable it to perform the Services. The Contractor shall be liable for any violation of legal provisions or rights of third parties in respect of all rights used in the Deliverables or during the performance of the Services. The Contractor, to the extent permitted by law, agrees to indemnify and hold harmless the GCA from all claims and causes of action asserted by third parties based on (alleged) Intellectual and/or Industrial Property Rights or on any other basis.
- 10.7 It is acknowledged and agreed by the Parties that GCA owns all property rights and may use, adapt, add to and subtract from the Deliverables and combine these with other artistic or literary material and to publish the result by any means, it being understood that the Contractor (including its employees and subcontractors) hereby

waives and agrees not to exercise or enforce any so-called “moral rights” which may now or may hereafter be recognized.

- 10.8 GCA grants Contractor a non-exclusive, non-transferable, non-assignable and limited right and license to use the following only to perform the Services in accordance with this Contract: The GCA’s trademarks, trade names, tag lines logos or service marks and any information made available to the Contractor by the GCA.

  - 11.1.6 The GCA, if one or more of the exclusion criteria mentioned in section I or section II of the signed Declaration on Honor becomes true for the Contractor.
- 11.2 Termination of this Contract shall not affect the other rights and/or recovery possibilities of the Party terminating it.
- 11.3 In the event of termination by GCA due to the fault of the Contractor, the GCA shall withhold and deduct from payment to Contractor the amount reasonably deemed necessary to complete the Services and deliver the Deliverables.
- 11.4 Unless and to the extent otherwise specified in this Contract, on the termination of this Contract for any reason, the GCA shall be responsible for paying the part of the Fee for Deliverables that have been accepted by the GCA up to and including the effective date of termination.
- 11.5 In the event that either Party wishes to terminate this Contract, a 30-day notice period will be taken into account by both the Contractor and the GCA, except for the situations mentioned in Article 11.1 above.
- 11.6 The following Articles shall survive any termination, cancellation or expiration of this Contract, together with any other provisions herein that by their nature shall survive:

From that moment all the fees involved will be considered as (gross) wages including holiday allowance and be reduced to the level where payment without wage taxes and/ or social security contributions can take place.
